

Your Post Surgery Follow up Appointment will be with your local optician

Following your operation today, your Surgeon has identified that you should have a follow up appointment with an Optometrist for a post-surgery examination. This appointment should be **6 weeks** after your operation date and will be with a Community Optometrist at a local opticians rather than having a further appointment in the hospital.

What you need to do now?

Please contact one of the optician practices overleaf in the next 7 days to make an appointment for your 6 week post operation check-up.

You will be asked for your **PIN number**. The PIN number can be found on the letter you have been given from the REI. You also **NEED** to take this letter with you to your appointment or you could be charged.

When making this appointment **YOU MUST STATE** that it is for your free cataract surgery follow up appointment or again you may be charged.

What will happen at the Optician practice?

When you visit the Community Optometrist, please give them the letter with the PIN number. Your eyes will be checked and you will be advised if you need spectacles or your existing prescription needs to be changed. The Optometrist will ensure that your outcomes are added to your hospital record and will advise you of any further actions that are needed.

What happens if I need new spectacles?

If the Community Optometrist has identified that you need spectacles a full eye test would be required. This could be done at the same time as your post-operative review or at optician's practice of your choice.

There is no charge for your post-surgery review if you bring the PIN number letter as proof, but you may need to pay for your sight test and any new glasses purchased.

What happens if I do not make this appointment?

This is an appointment following routine surgery, if you do not book or attend this appointment you will not be contacted by the hospital and your name will be removed from the waiting list.
